### Subject: Sustainable Electrical Design

### Speaker: Mark Fisher, PE, LC, LEED AP, Integrated Design Associates, Inc.,

We will explore a variety of options that can be designed into a commercial building to improve sustainability and energy efficiency. Included will be a case study of Integrated Design Associates' (IDeAs) new facility, the first net zero energy commercial building in the country.

Our speaker is Mark Fisher, PE, LC, LEED AP, for Integrated Design Associates, Inc., He has 23 years experience in electric design since graduating from Penn State's AE program. Mark has instructed courses for IES, AIA, BOMA, PGE and community colleges. He has spoken on sustainable engineering at conferences/meetings for AIA, BOMA, CASH, Green California Summit, University of Nebraska and the Architectural Engineering Institute 2007 National Conference among others. In addition, Mark also sits on the State Architect's Green Ad Hoc Committee.

Please join us in welcoming our speaker to San Francisco for what is sure to be an interesting and productive session.
