

TECH ACADEMY OF SILICON VALLEY

New and Expanded Programs!!!

The 2008 Tech Academy of Silicon Valley is adding programs in its quest to improve students' understanding of engineering and technology and support their continued participation in math and science. Program emphases are on teamwork, innovative problem solving, and project-based 'learning by doing'.

The Academy for Middle and High School students returns with the Regular Program and three Advanced offerings - at San Jose State University, Santa Clara University, Sobrato High School in Morgan Hill California State University-East Bay and Alston Montessori School in Fremont.
