

August 2015

Tom Coughlin's Welcome to Region 6 - page 7

CHAPTER MEETINGS

SCV-SPS - 8/6 | [Real-world Audio Source Separation](#) - automatic karaoke, extracting dialogue from old films, upmixing mono recordings to multi-channel recordings, Algorithmically, an ill-posed and challenging problem ... (AMD, Sunnyvale, 6:30 pm)

SCV-REL - 8/6 | [Macroscopic & Stochastic Aspects of Negative Bias Temperature Instability](#) - shift in MOSFET parameters, defect generation explained from both macroscopic and stochastic viewpoints ... (Qualcomm, Santa Clara, 6:00 pm)

SCV-PHOTO - 8/11 | [Networking in the Data center](#) (Intel, Santa Clara, 6 pm)

SCV-EDS - 8/11 | [2D Crystals for Smart Life](#) - 2D crystals for..., green electronics needed to support Big Data, IoT/IoE and social media ... (TI, Santa Clara, 6 pm)

SCV-CPMT - 8/12 | [Robust 3DIC Package Assembly Process Engineering for High Volume Production](#) - FPGA, CoWoS (Chip-On-Wafer-On-Substrate), low power and latency, manufacturing complexity... (TI, Santa Clara, 11:30 am)

SCV-PV - 8/12 | [Functional Coatings for PV Glass](#) - very low-cost anti-reflective coatings, engineered to survive high temperatures, humidity, abrasion, soiling ... (PARC, Palo Alto, 6:30 pm)

SCV-TEMS - 8/13 | [Understanding an Industry Technical Staff Pipeline](#) - how the corporate staffing system works, criteria are used for career advancement ... (Webinar, 8 am)

Career Development

PROFESSIONAL DEVELOPMENT COURSES

[Besser Associates](#) - RF and Wireless Training

[UCSC Extension in Silicon Valley](#) - Engineering Classes

[Ozen Engineering, Inc.](#) - ANSYS training

EMPLOYMENT OPPORTUNITIES

[Sonoma State University, Department of Engineering](#) Teaching positions

CONFERENCE CALENDAR

[Flash Memory Summit](#), August 11-13 2015, Santa Clara Convention Center

[Hot Chips 27-A Symposium on High-Performance Chips](#), August 23-25, 2015, Flint Center, Cupertino

[Hot Interconnects 23: A Symposium on High Performance Interconnects](#) August 26-28, 2015, Oracle Santa Clara

[Interdrone](#) September 9-11, 2015, Las Vegas, Nevada

[Berkeley Symposium on Energy Efficient Electronic Systems](#), October 1-2, 2015, Berkeley

[Rock Stars of Cybersecurity](#) October 27, 2015, San Jose

[Rock Stars of Tech Startups](#) November 10, 2015, San Francisco

IEEE **GRID** is the monthly newsmagazine of the San Francisco Bay Area Council of the Institute of Electrical and Electronics Engineers, Inc. As a medium for news for technologists, managers and professors, the editorial objectives of IEEE **GRID** are to inform readers of newsworthy IEEE activities sponsored by local IEEE units (Chapters, Affinity Groups) taking place in and around the Bay Area; to publicize locally sponsored conferences and seminars; to publish paid advertising for conferences, workshops, symposia and classes coming to the Bay Area; and advertise services provided by local firms and entrepreneurs.

IEEE GRID is published as the **GRID** Online Edition residing at www.e-GRID.net, in a handy printable **GRID.pdf** edition at the end of each month, and also as the **e-GRID** sent by email twice each month to more than 33,000 Bay Area IEEE members and other professionals. You may also install our Android and iOS Apps from their stores, for your tablet or smartphone.

Editor: Sandra Winkler
IEEE **GRID**
PO Box 2110
Cupertino CA 95015-2110

SCV-CS - 8/18 | [Big Data - Yesterday, Today, and Tomorrow](#) - From Hollerith machines and punch cards, Insights for the future can be gained by..."stack wars", applications ... (Cadence, San Jose, 6:30 pm)

SCV-NANO - 8/18 | [Electrostatic Functionalization of Carbon Based Nanomaterials and Applications in Chemical, Gas and Bio-Sensing](#) - electrostatic charging for the functionalization of carbon based nanomaterials, thin films ... (TI, Santa Clara, 11:30 am)

SF-PES - 8/19 | [Advanced Smart Grid Communications & Applications: A Systems View for Successful Deployment](#) - advanced wireless communication system, utility monitoring, communication, and control of distribution equipment ... (PUC, SF, 11:30 am)

SCV-SPS - 8/19 | [Scene Understanding in the Era of Deep Learning](#) - Recognition of 3D objects, 3D reconstruction, category-specific priors, "deep learning" ... (AMD, Sunnyvale, 6:30 pm)

SCV-SSCS - 8/20 | [Selected Analog Design Topics a Two Part Short Course](#) - Modem for high speed communications, 5um down to 16nm, Time-based circuits, efficient protocol for encoding edge time information ... (TI, Santa Clara, 4 pm)

Computer /BAMMF - **8/21** | [Bay Area Multimedia Forum](#) - Vision-enhanced Immersive Interaction with Touch Board (ViiBoard), future large-scale video/light-field displays, ... (George E. Pake Auditorium, Palo Alto, 1:30 pm)

SCV-CE - **8/25** | [3D Printed Package Components for High Performance Packaging](#) - print complex structures with multi-material inks, mechanics of the technology and manufacturing platform, package types such as SiP, PoP... (NVIDIA, Santa Clara, 6:30 pm)

SCV-CPMT - **8/27** | [Packaging Solutions and Innovations with Compression Molding](#) - large-area-size substrates, limited by current transfer mold, slow "dipping" of the devices into either a melted granular or liquid mold compound... (TI, Santa Clara, 11:30 am)

SCV-SPS - **9/3** | [Optical Character Recognition for Most of the World's Languages](#) - recorded information, visual rather than digital Unicode form, conversion to Unicode for use in the digital world ... (AMD, Sunnyvale, 6:30 pm)

SCV-CPMT - **9/9** | [Anisotropic Conductive Film \(ACF\) Interconnection Technology for Wearable Electronics Applications](#) - flexible printed circuits (FPCs) substrates, COF (Chip On Flex)/CIF (Chip In Flex), FOF (Flex On Flex) and FOF (Flex On Fabric) technologies ... (TI, Santa Clara, 5:45 pm)

SCV-COMSOC - **9/9** | [5G: Expectations and the Road Ahead](#) - path to full 5G feature set network, optimized derivative LTE versions for various vertical markets ... (TI, Santa Clara, 6:30 pm)

SF-PES - **9/16** | [Understanding the Electrical Arcing and the Arc-flash Hazard Study](#) - theory of the electrical arcing and the accepted methods to calculate the arc-flash hazard, develop strategies to minimize burn injuries during an arc flash incident ... (PUC, SF, 11:30 am)

SCV-SPS - **10/15** | [Gathering Light](#) - prime lenses that provide an optical zoom, small mirrors allow reconfiguring the cameras to select..., architecture of this flexible computational camera ... (AMD, Sunnyvale, 6:30 pm)

SCV-MTT - **10/17** | [Short Course 2015 - RF and EMI/EMC: Instrumentation, Components and Practice](#) - fundamentals of RF technology such as Maxwell's equations, electromagnetic theory, S-parameter methods, time and frequency domain measurement techniques, key components (amplifier, filter, and mixer) utilized in the RF and EMC ... (TBD, 8 am - 5 pm)

SF-PES - **10/21** | [The Future of Energy: Smart Grid and Beyond](#) - Fall Banquet, roadmap, Three key visionary concepts, solar PV, Intelligent Electronic Device (IED) integration ... (Jillian's at Metreon, SF, 6:30 pm)

[Rock Stars of Tech Startups](#) is your Roadmap to Success.

Be in San Francisco on November 10, 2015, at the Village in San Francisco.

All SFBAC Members receive a deeply discounted registration rate of \$229. Use Promo Code **RS-GRID** to take advantage.

You've launched an innovative startup and gotten others to invest in it, but you're burning through capital fast. How do you make the leap to light speed and become the next "big tech thing" before you run out of money or get eaten by the competition? Or how can you get someone to acquire your startup to help bring it to fruition?

Hear case studies where successful tech startup executives will give you clear advice and warnings. Plus, the experts who helped those startups succeed will be talking about how to find the right talent, platform, and how to manage risks. What's more, M&A leaders from Google, Intuit and Oracle will tell you what they're looking for. Don't miss this chance for direct advice and consultation.

The #1 Flash Memory Conference!

Featuring Flash in Enterprise Storage

Are you struggling with crucial Solid State Drive (SSD) decisions? Can SSDs resolve your application bottlenecks? How can you maximize SSD performance? Flash Memory Summit will explore new frontiers in enterprise storage and help you make the right choices.

Highlights

Three days packed full of seminars, forums, keynotes, and sessions:

- Plenary on 3-D Flash
- Forums on NVMe, Architectures, Enterprise SSDs, Enterprise Storage Design, PCIe SSDs, and Application Performance
- Sessions on Enterprise SSD Buying Trends and Flash Storage Performance Measurements
- New Technologies Sessions: RRAM, MRAM, and Life Beyond Flash
- Annual Update: Flash Technology, Enterprise Flash Storage, Interfaces, and New Technologies
- Beer, Pizza and Chat with the Experts Session

Don't miss the 10th Annual Flash Memory Summit and Exhibition! Hear from industry leaders, learn about the latest technologies, and talk to key vendors. Nothing else comes close!

4th Berkeley Symposium on Energy Efficient Electronic Systems

October 1–2, 2015

Berkeley, CA, USA

Robert Colwell

Former Director
Microsystems Technology
Office
DARPA

**Banatao Auditorium, Sutardja Dai Hall
UC Berkeley
2594 Hearst Avenue
Berkeley, California**

Learn about the radical reduction in power consumption in these areas:

**Ultra Low Voltage Nanoelectronics
Milli-Volt Nanomechanical Logic
Ultra-Low Energy Spintronics
Optical Chip Scale Interconnects
Low Voltage CMOS Circuits and Architectures
Energy Efficient Computing Systems**

Jeffrey Hawkins

Co-Founder
Palm Computing &
Handspring

Bringing together researchers who are working on breakthrough improvements in energy efficiency for information processing systems. The goal is for the attendees to gain an integrated perspective of the challenges and advances in this domain of technology through sessions that cover the entire food chain, from devices to systems. **For more information**, please visit the Symposium website: <http://www.e3s-center.org/symposium> IEEE registration discounted to \$225 before September 3rd, \$250 after September 3rd.

KEYNOTE SPEAKERS

Jeffrey Hawkins, Co-Founder, Palm Computing and Handspring

Robert Colwell, Former Director, DARPA's Microsystems Technology Office

Other Speakers include: Suman Datta, Penn State U., D. Scott Holmes, IARPA, Ali Javey, UC Berkeley, Pedram Khalili, UCLA, Subhasish Mitra, Stanford U., Dharmendra Modha, IBM, Peter De Dobbelaere, Luxtera Inc., Enrico Sangiorgi, U of Bologna, Shinichi Takagi, U. of Tokyo, Michael Watts, MIT, Ming C. Wu, UC Berkeley, Jun-Bo Yoon, KAIST, Jimmy Zhu, Carnegie Mellon U., 12 Contributed Talks, 3 panels, and Poster Session with 20+ presenters

Learn about the radical reduction in power consumption in these areas:

- Ultra Low Voltage Nanoelectronics
- Milli-Volt Nanomechanical Logic
- Ultra-Low Energy Spintronics
- Optical Chip Scale Interconnects
- Low Voltage CMOS Circuits and Architectures
- Energy Efficient Computing Systems

Message from the new IEEE Region 6 Director

IEEE Region 6 is a wide geographical area with diverse interests. As a consequence, we have many opportunities and challenges that face our members. We also have enormous resources, both physical and human, in Region 6. Over the last few years we have developed a series of annual conferences focusing on the IEEE motto of “Advancing Technology for Humanity.” These include our Global Humanitarian Technology Conference (GHTC) and the Technologies for Sustainability Conference (SusTech).

Over the next couple of years we are considering expanding our collection of conferences to include an Industrial Technology Conference and a Patent and Intellectual Property Conference. We are interested in what sort of events would interest you, so please let us know. Also if you are excited about getting engaged in these events we are always looking for committee members to make them successful, so let the chairs of these Conferences know if you want to get involved.

In any case, please consider coming to these events and/or letting your friends and colleagues know about them. We hope that you can come to one or more of these events and participate in the growth and development of our IEEE Region 6.

Best wishes,

Tom Coughlin

IEEE Region 6 Director 2015-16
